

TBW Class Activity

Abdullah Sonija 24K-0013

Activity #7

1. Target Audience

Excerpt 1: Executives / Manager

Excerpt 2: Engineers / Technologist

Excerpt 3: Technicians

2. Needs :

Excerpt 1: Give costs, benefits and implementation issues for decision making

Excerpt 2: Give algorithms, software & system details for technical understanding

Excerpt 3: Gives practical steps for finding and fixing problems.

3. Tone, language & detail :

Excerpt 1: Formal, simple and high-level

Excerpt 2: Technical, precise & detailed

Excerpt 3: Direct, practical & instructional.

4. Visuals and ~~inter~~ instruction.

Excerpt 1: Uses summaries & business information

Excerpt 2: Technical diagrams & data diagrams

Excerpt 3: Flowcharts & step by step instruction

5. Prioritized Information:

- Executives: Cost, benefits, risks & ROI because they make decision
- Engineers: Algorithms, system and Frameworks because they build systems.
- Technicians: Errors, maintenance & troubleshooting because they solve practical problem.

6. Structure

The structure matches audience: executive summaries for managers, technical diagrams for engineers, and troubleshooting guides for technicians.

7. Language

Excerpt 1: denotative & simple.

Excerpt 2: technical language such as CNN/TensorFlow

Excerpt 3: clear action based language.

8. Overall finding.

All three documents adapt reasonably well to their audience.

Activity #8
