Welcome to the leaderboard! Your submission scored 0.77990.
Your score represents your submission's accuracy. For example, a score of 0.7 in this competition indicates you predicted Titanic survival correctly for 70% of people.

What next? You've got a few options:

- 📚 Learn skills that can improve your score in our [Intro to Machine Learning course](#) by Dan Becker.
- 🔍 Check out the [discussion forum](#) to find lots of tutorials and insights from other competitors.
- 🏆 Find a new challenge by entering one of our [open, active competitions](#) or searching our [public datasets](#).
